# Goodbye to the old and hello to DIY Blinds

We're disrupting the blinds industry by turning it digital. Our mission is to have the best customer service and the most hassle-free online shopping experience in the market.

No pushy sales, no commissions and no overheads. Your order is sent directly to our fabulous team, to be custom made in Melbourne, Australia. Saving you time and money.

## The DIY Blinds way

# We've made buying curtains so easy...

## Choose samples

Choose your free samples online and we'll express deliver them to your door.

## Measure up

Measure up like a pro with our online guides, and get a quick price online.

## Customise your order

Customise your curtains and order online, then we'll take care of the rest.

## DIY install

We'll deliver your Aussie made curtains direct to you, then you install using our easy online guides.

## How do I choose the perfect finish?

Nothing beats the feeling we get, knowing we've helped our customers choose their dream curtains. The perfect finish looks fabulous and is super functional as well.

### Just off the floor

Having your curtains stop just shy of your floor is a classic, neat finish. It's a hassle free option if you have young kids, pets or hard floors like polished concrete, timber and tiles, as your curtains won't collect dust and dirt when you open and close them. You'll want your ceiling and floor to be parallel for this finish.

### Touching the floor

When your curtains meet your floor, it causes a subtle break in your fabric folds for a slightly informal look. It's a great finish that screams made to measure. You'll want your ceiling and floor to be parallel for this finish.

### Puddling

Puddled curtains gather elegantly on the floor, creating the illusion of weight and volume. Combined with the softness of drapery, it's quite simply a gorgeous, luxe look. This option is super popular with designers and architects we work with. It's perfect if your floor or ceiling height are slightly uneven, as it hides imperfections. We add a minimum of 20 mm to your drop to get this finish.

### What does a parallel ceiling and floor mean?

Parallel just means if you measured from ceiling to floor in a few places across your wall, you'd get the same measurements and no more than 10 mm of difference between them. Puddling curtains can hide uneven spaces.

“ Go for puddling to create a relaxed, cosy and luxe vibe. ”

### The right hem

Pick your perfect hem from our range of hem options. For sheers opt for lead weights or a 70 mm hem, and choose a 70 mm hem for blackout fabrics. A 100 mm hem adds an extra touch of luxury, especially for our most premium sheers like linen.

### Want more inspo?

Check our website to see more projects featuring our designer curtains.

“ We don’t skimp on fabric. Our curtains have 2.2 metres of fabric for every metre of track, which makes them look so plush. ”

**Like to see more?**  
Our Instagram has tons of gorgeous home renovations with designer curtains.

## Which fit should I select?

We’ve got plenty of tips and tricks up our sleeve, to help you pick the ideal fit. Getting it right creates a sense of space and celebrates the architectural features in your home.

### Top fit

By fitting your curtains to your ceiling, you’ll get a designer finish and maximum impact - giving you that wow factor. The vertical lines in your folds, elongate your walls and make your space look larger. S fold curtains look incredible when top fitted, as it lets their curves shine.

### Face fit

Hanging your curtains from your wall looks great in period homes with high ceilings and large ornate cornices. If your cornice is wider than 90mm, we would suggest opting for a face fit curtain. It’s a semi traditional finish, that looks amazing with a modern S Fold finish.

## Why choose S fold curtains?

The S folds within your curtain create long vertical lines which elongate your walls, helping make your space appear taller, larger and grand.

### S fold

This is the fold of the moment, and we're a little bit obsessed with it. Designers love its structured yet soft look, where the folds in your fabric form an S shape along a special track. Combined with a top fit, no one will miss your curtains. It's our deepest profile heading, giving your curtains extra volume. Pretty much all quality fabrics look great in an S fold.

**Looking for more style tips?**

We've got plenty of interior design ideas on our website.

“ Tape fabric samples to your wall and look at them in different lights. ”

## How do I dress my corner window?

If you have a corner window and you're wondering where to start, don't stress. The good news is, we've never met a corner window we couldn't dress.

### Tracks meeting each other

Having two, straight curtain tracks meet in the corner of your window, is an easy win and quick to install. Excellent for when you want to open your curtains from the corner. We can help you measure up, so that your tracks join perfectly.

### Curved curtains

Curved curtains can be fitted in corner and bay windows and curved windows too. Their sleek curved tracks are simply irresistible. They're also great for getting around chunky obstructions that project out from your window. You can have your curtains stack any way you want, including in one piece to the left or right. We're here to help you work out the best option. See pages 22 and 23 for more details.

“ A curved track is really versatile and looks amazing in both period and modern homes. ”

### Need help measuring?

Call us and we can come out to measure up for you.

**Interested in more info?**

Find out more about motorisation on our website.

“ Plan ahead for wired motorisation in your reno or new build, you’ll be glad you did. ”

## I’m interested in motorised curtains. Where do I start?

In a nutshell motorisation is a smart and effortless alternative to using curtain wands or cords. You can use a remote control, smart phone or your voice and it’s child safe, super accessible and looks sleek.

### Wired motorisation

Wired curtain motorisation is cabled into your home and runs off your electricity. It’s perfect for renovations and new builds.

### Battery powered motorisation

Wirefree curtain motorisation is fantastic if you’re putting up curtains yourself. This option doesn’t need any cabling, and the rechargeable battery only needs to be charged once a year.

### Voice activated

It’s an obvious addition to your automated home. When you combine motorised Somfy curtain tracks with the Somfy Connexoon Window RTS Hub from DIY Blinds, you can open and close your curtains with a ‘Hey, Google...’ to your smart home device.

## What are the benefits of combining sheers with a blackout roller blind?

Gain all the benefits of installing a blackout roller blind behind your sheers: complete light control, daytime and nighttime privacy and incredible thermal insulation.

### Thermal insulation meets luxe texture

Combining sheers with blackout blinds is one of our most popular product combinations. Sheer curtains create a soft, relaxed and luxe vibe in your home. Blockout roller blinds let you fully control light, provide complete privacy, stop heat escaping in winter and block sunlight in summer. Excluding our Focus, Solitaire and Qube ranges, our blackout roller blinds meet high standards for thermal insulation.

### Make your sheers the hero and your blinds smart

Let your sheers take centre stage and be the aesthetic hero. Choose a blackout roller blind fabric to blend with your walls, and for effortless luxury add motorisation. Pair premium motorised roller blinds with the Somfy Connexoon Window RTS Hub, so you can schedule them to respond to your routine and the weather.

### Ready to design your curtains?

Order your free samples online and get touchy feely with our fabrics.

“ Blockout roller blinds offer great value thermal insulation, while sheers bathe your room in diffused daylight. ”

“ When choosing your fabrics, hold your blockout samples behind your sheers. A darker blockout fabric highlights texture in your sheers, but creates a bolder look. ”

## Can I order double curtains and lined curtains online?

Absolutely! You can customise every last detail of your double curtains and lined curtains and order online. All our designer curtains are custom made in Melbourne, Australia.

### Double curtains: a plush 5 star hotel look at great value prices

Channel penthouse vibes and achieve high-performing thermal insulation. Double curtains are two plush barriers against the outside elements. The blockout fabric darkens your room when needed, and it stops heat escaping when it's cold outside.

Customise both curtains to your heart's desire. For a designer look choose a luxe S fold sheer for your front curtain, and pick a pleated curtain for your rear blockout. Add motorisation to effortlessly switch between daytime and nighttime privacy.

### Lined curtains: a designer's best kept secret

Designers love lined curtains. The sheers provide soft texture, while the blockout lining absorbs UV rays and stops your sheers from fading.

Choose a luxe sheer and pick your lining. We join both fabrics into one plush lined curtain on a single track. Lined curtains are a great thermal insulation option and totally block light. They also help reduce outside noise and improve acoustics in your home.

“ Double and lined curtains are high-performers when it comes to thermal insulation. ”

## Tell me more about curved curtains. They look amazing!

You're spot on! Curved curtains are sleek, sophisticated and totally glam. Order curved curtains online if your corner, box or bay window angles are 45 or 90 degrees, or call us for bespoke curved curtains.

### Curved curtains are perfect for box and bay windows

Curved curtains celebrate the elegance of your beautiful box and bay windows. Our curved tracks fit perfectly into windows with 45 or 90 degree angles. The curves highlight the soft yet structured folds in your luxe curtains.

Elongate period windows with curved curtains in an S fold finish. Choose a face fit located halfway between the top of your window frame and your ceiling, or aligned with picture rails or decorative vents. Your room will appear more spacious and your windows will look grander.

### Corner windows look irresistible with curved curtains

A curved track screams designer cool and looks incredible in any corner window with a 90 degree angle. Choose between one or two bends, and have your curved tracks fit inside or wrap around your corners.

For an ultra-glam look pair a curved track with an S fold and go for a dramatic ceiling mount. We offer bespoke curved tracks for corners with unique angles over the phone.

### Decorative rods by Vanda

Premium Vanda decorative rods are designed to make a statement, and are available to order over the phone only. The Vanda Boldtrak range is a super popular bold decorative rod, and it looks fabulous in black and paired with S fold curtains. The Vanda Versatrak range looks incredible with pleated and wave fold finishes.

“ Measuring up for curved curtains is easy. Follow our helpful online guides for corner and bay windows, then order online. ”

## Arcos by Graya

This jaw-dropping Brisbane home was constructed by Graya and designed by Joe Adsett Architects. Arcos means arches in Spanish, and this home has curves galore. Premium quality linen sheers add a soft, relaxed feel and perfectly complement the warm, neutral colour palette. For effortless luxury, privacy and thermal insulation, Rob and Meghan installed Somfy-powered motorised blackout roller blinds behind their sheers.

You can have a touch of luxury at home, regardless of whether you're renovating on a budget or you have a limitless budget!

### Rob and Meghan chose

- S fold sheer curtains from our Allusion range, colour Linen.
- Motorised blackout roller blinds from our Balmoral range.

“ The sheer curtains at Arcos filter sunlight, let in the gentle Brisbane breeze and are soft and tactile. ”

## 123 Clarke St by Yolanda

Yolanda is the BuildHer behind this luxuriously renovated and extended Federation home in Melbourne. It's packed with personality and luxe details. Concrete, timber and exposed brick finishes are juxtaposed with polished nickel, brass and Italian white crystal. Huge windows let natural light flood in, which is diffused by the dramatic linen sheers that feature throughout the home.

### Yolanda chose:

- S fold sheer curtains from our Allusion range, colour Marzipan.

## Templestowe Townhouse 1 by Chamberlain Property

Dynamic duo Jess and Matt run successful design and build business, Chamberlain Property. They make home buyers' dreams come true across Melbourne. Their two sleek Templestowe townhouses are sumptuous yet superbly functional family homes.

In Templestowe Townhouse 1 light and airy sheer curtains soften the crisp white walls, natural stone and hardwood finishes. The sheers are tactile, filter light in the most incredible way and create daytime privacy. Blockout roller blinds work hard to provide light control, nighttime privacy and thermal insulation.

### Jess and Matt chose:

- S fold sheers from our Morton range, colour Blanc
- Blockout roller blinds from our One Block range, colour Ice.

“ When preparing to sell a home, choose luxe sheers for hero spaces like living rooms and master bedrooms. They help buyers feel emotionally connected to the property. ”

## Templestowe Townhouse 2 by Chamberlain Property

Templestowe Townhouse 2 has a completely different floor plan and look and feel to its neighbour, but it's equally lust worthy. It features a bold green kitchen, soothing grey tones and brass accents for warmth. Linen sheers add laidback drama in the kitchen and living spaces, and create a warm, cosy vibe in the bedrooms. Blockout roller blinds are installed behind the sheers for light control, privacy and thermal insulation.

### Jess and Matt chose:

- S fold sheers from our Allusion range, colour Marzipan (master bedroom) and colour Nougat (kitchen and living spaces)
- Blockout roller blinds from our One Block range, colour Ice.

“ Our linen sheers add softness and perfectly complement the sophisticated colour palette of Townhouse 2. ”

## Under The Elm Trees by Jodie Johnson

Green is the new black, if BuildHer Jodie's fabulous home is anything to go by (which we think it is). Deep, soothing green tones are a consistent theme in this incredible 1930s home renovation, and feature in the bathroom and pool tiles, sleek kitchen cabinetry and plush velvet curtains in the master bedroom. Sheers in the living space are the epitome of elegance, and filter bright northern sunlight.

Jodie chose custom fabrics outside of our online range. We can source any fabric from premium textile houses and pass on our trade discounts. Let our design consultants know what fabric you're after and we can do the rest, including help you measure up, get a quote and install your curtains.

### Jodie chose:

- Custom fabrics from our premium textile suppliers. Call us to learn more.

“ Our green velvet curtains are perfect for our home and look divine with our wall lights. ”

“ We worked with DIY Blinds to select custom fabrics outside of their online range. ”

## Our Forever Home by Erin Katsavos

Erin meticulously renovated her art deco family home and added a strikingly modern yet seamless extension in collaboration with Instyle Design and Mayché Luxury Homes. This is a colour-rich home that honours its past whilst celebrating modern living. The floor-to-ceiling and wall-to-wall sheers cover the expanse of windows and sliding doors in the new extension. They add texture and a touch of glamour, and prevent unwanted insects from entering the home during summer when the windows and doors are open.

### Erin chose:

- S fold sheer curtains from our Allusion range, colour Marzipan.

“ I couldn’t be happier with my sheers. They add the perfect softness and glamour. ”

## Three Gables by TrueBuild Homes

Taf, co-director of TrueBuild Homes, and his partner Bree collaborated with Kate Lawrence Interiors to bring their unique vision for Three Gables to life. Achieving a sense of balance was important to the couple. Imperfect and natural finishes are juxtaposed with sleek and refined elements. Hard surfaces are softened by tactile fabrics like their linen sheers. And greys and neutrals add warmth to the black and white design. Taf and Bree share a passion for quality materials and simple forms, and they believe you don't need to spend ridiculous money to have a beautiful home. We agree!

### Taf and Bree chose:

- S fold sheer curtains from our Allusion range, colour Silver
- Somfy-powered motorised blackout roller blinds paired with the Somfy Connexoon Window RTS Hub

“ We can control all our motorised blinds from our phones, without having to move rooms. ”

“ Our linen sheers play a massive role in softening the space, adding drama and bringing everything together. ”

## Newtown Courtyard House by Built By Wilson

Built By Wilson designs and builds beautiful family homes that are both functional and stylish. Newtown Courtyard House features natural, textural and layered finishes. Lauren worked with renowned interior designer Simone Haag to choose the perfect furniture, art and objects. Ceiling-mounted sheer curtains create a cosy, luxurious vibe in the living rooms and curve beautifully around the corners.

We have premium quality sheers to cater for customers doing modest builds and renovations, as well as for high-end homes. Our designer curtains help transform projects with small budgets or limitless budgets into breathtaking homes.

### Lauren chose:

- S fold sheer curved curtains from our Burano range, colour Vanilla.

“ We worked with a DIY Blinds design consultant, Kia, over the phone and on email. Together we chose window furnishings to complement each space. ”

## Blue Lagoon by Kyal and Kara

Blue Lagoon is the brand new, forever home of Kyal and Kara. They're the fabulous home style and renovation duo, who first appeared on The Block and whose home renos have wowed us ever since. Their lush designer curtains create a soft and luxe vibe and because they're motorised, are easy to control and child safe.

### Kyal and Kara chose:

- Sheer curtains from our Allusion range, colour Marzipan.
- Double curtains combining sheer curtains from our Alexandra range, colour Smoke with blockout curtains.
- Statement top fit for the 4 metre high ceilings in their master bedroom, and our S fold heading and a puddled finish throughout their home.
- Motorised Somfy Glydea curtain track system. It's wired and can be controlled with a remote control or your smartphone or voice using the Somfy Connexoon Window RTS.

### Renovating or building?

Share your house plans with us, we'd love to help design your window furnishings.

“ From start to finish, this was such an easy and fun process. ”

“ We're a busy family, and we love being able to control our curtains with the touch of a button. ”

## Cecil Street by Alison Lewis

This luxury, holiday rental in Melbourne is the latest renovation by Alison Lewis of BuildHer Collective. She's transformed a Californian bungalow into a serene, modern home. Swoon! It's all about warm, natural materials and bespoke details. The designer curtains, bathe the home in light and let the property's gorgeous, original features and striking new curves shine.

### Alison chose:

- Sheer curtains from our Allusion range, colour Snow.
- Lined sheer curtains from our Allusion range, colour Rattan.

## Bajo el Sol by Kelle Howard

Oh what we'd give to spend lazy, summer days in this beachside haven! Inspired by far flung destinations like Ibiza, Mexico, Palm Springs and Greece, Kelle has poured her signature raw, coastal luxe aesthetic into every last detail. Our designer curtains are the perfect match for this texture rich, family home.

### Kelle chose:

- S fold sheers from our Centennial range, colour Ghost and blockouts from our Anstey range, colour Blanc.

“ I love layering textures and these curtains are incredibly soft, light and tactile. ”

“ Good communication is vital during a build and the DIY Blinds team is fantastic to deal with. ”

## Zephyr + Stone

Kasia and Ania of Zephyr + Stone get it right every time, creating beautiful interiors that are clever and thoughtful. We'd happily move straight into either of these dreamy, tranquil homes. Custom S fold curtains are one of many luxe, bespoke details they hand selected and their choice of a ceiling mount creates an incredible sense of space. Sheers bathe the rooms in filtered light and make them feel serene and private.

### Kasia and Ania chose:

- S fold sheer curtains from our Allusion range, colour Snow

“ The way S fold curtains sit and fall organically is second to none. The Allusion range of fabrics is so premium. ”

## Alma Road by Hunting for George

Lucy of Hunting for George excels at honouring period features whilst transforming spaces for smart, modern living. And she's a big advocate of home automation. Lucy has cleverly combined designer curtains with Somfy motorised roller blinds that can respond to your routine and the weather. Sit back, relax and let her beautiful home with its neutral tones, gorgeous pops of colour and sophisticated design details wash over you.

### Lucy chose:

- S fold sheers from our Allusion range, colour Snow + Somfy motorised, blockout roller blinds.
- S fold blockouts + PolyLux® plantation shutters in the master bedroom.

“ Designer curtains + PolyLux® plantation shutters equals sophisticated bedroom bliss. ”

“ The combination of sheer curtains + motorised roller blinds is next level! Somfy motorisation is so easy to install and the Connexoon Hub is genius smart. ”

## Who we work with

We only partner with the most premium brands. Enjoy browsing the innovative and beautiful products that our partners have to offer. When you see something you like, we're just a phone call away.

### JAMES DUNLOP

These guys are passionate about textile design and manufacture. Their range of high quality fabrics is packed with on trend tones and textures. They also love sharing their latest collaborations and inspiring us to be bold and adventurous with the fabrics we choose. @we\_love\_fabric

Interior designers go crazy for Zepel fabrics. Their range is versatile, innovative and features light and airy, sheers and stunning solid fabrics in soft and dreamy tones. You only need to feel their fabrics, to know they're special. @zepelfabrics

### MOKUM

Mokum's range reflects our laid back, Aussie lifestyle and love of the outdoors. They design fabrics using subdued colours, fresh neutrals and fashionable injections of pattern and texture. @mokumstudio

## somfy.

This global brand is a leader in motorisation and home automation. We partner with them to motorise our blinds and curtains. They've got some of the smoothest, quietest and easiest solutions on the market, which makes them a fantastic fit for our designer window furnishings. @somfy\_anz

## WARWICK

Our customers love Warwick fabrics, as they're a perfect blend of great design and quality craftsmanship. Choosing a curtain fabric is easy as Warwick has a world of options, ranging from stylish neutrals to beautiful pops of colour. @warwickfabrics

## CHARLES PARSONS

Get the luxe look by picking a textile from Charles Parsons for your designer curtains. This brand has classic styles as well as striking patterns and because they're premium, they're guaranteed to look as good as new for years to come. @charlesparsons\_interiors

# We're here to help

We're right here at every step,  
to help you bring your vision to life.

## After some design advice?

Our design team is passionate about helping every customer choose the right curtains that fit and function perfectly. We can chat through your ideal look and practical needs like light control, privacy and thermal insulation. You can also email a photo of your window(s), for advice choosing a fit.

## Need help installing?

No problem, we offer an installation service.  
Just call us and we'll organise it for you.

## Something more bespoke?

For new builds and large or really custom renovations, we can work closely with you to design the perfect window coverings for your home. Feel free to share your house plans with us, and we'll get started.
